Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by

Roediger et al. (5,960,198).

What is claimed is:

1. A method for instrumenting software For use in an object-oriented environment, comprising:

receiving compiled application code;

instrumenting the compiled application code.

instrumenting including adding code to turn features of instrumentation ON and OFF;

loading the instrumented code; and

executing the loaded code.

- 2. The method of claim 1, wherein instrumenting includes adding a collector object and a plurality of instrument data structure objects.
- 3. The method of claim 2, further comprising: registering a list of methods in the collector object;

Roediger

See The title and the abstract. Also, see item 17 of fig. 1 and item 40 of fig. 3.

Page 2

See item 23 of fig. 1.

See item 32 of fig. 3.

See items 44, 46 and 48 of fig. 3, col. 2 lines 50-62 and col. 3 lines 3-19.

This feature is inherent via the executing step below.

See item 52 of fig. 3.

See col. 2 lines 1-8, col. 2 lines 37-42 and col. 3 24-28.

These features are inherent in the cited portions of claim 2 to enable profile data to be Art Unit: 2193

collected and later utilized for multiple independent benchmarks.

associating a selected one of the plurality of instrument data structure objects with a selected method in the list of methods;

and registering the selected instrument data structure object in the collector object.

- 4. The method of claim 1, wherein instrumenting is selective, based on a predetermined description.
- 5. The method of claim 4, wherein the predetermined description is indicative of at least one method to be instrumented.
- 6. The method of claim 4, wherein the predetermined description is indicative of at least one class to be instrumented.

Claims 7-8, 14-16, and 20-21 are rejected as claim 1.

As per claims 9-13, see col. 8 lines 19-29. Note the recording feature is an Inherent part of profiling.

In reference to claims 17-19 and 22, see the rejection of claims 9-13.

The patent to Alexander III et al. (6,604,210) is also considered pertinent to the applicant's disclosure; since, it also provides for turning profiling information on and off (col. 20 lines 60-65).
